Dear Colonel Dunn:

This is in reply to your letter of 25 July 1983 requesting that CIA review for security portions of Dr. Jeffrey J. Clarke's manuscript Advice and Support: 1965-73.

We have no objection to the publication of the pages which we have reviewed. This approval should not be construed as a blanket approval of the publication of the entire volume, but only those pages which you have selected as of interest to CIA.

Sincerely,

Dear Mr. Simonds:

Enclosed are portions of an unedited manuscript, Advice and Support: 1965-73, by Dr. Jeffrey J. Clarke. This volume will be published by the Center of Military History (CMH) as an unclassified official history in the forthcoming US Army in Vietnam series.

Request you review for security the enclosed chapters. Other pertinent portions of the manuscript are being reviewed for security by the Department of Defense, Joint Chiefs of Staff, National Security Council, Defense Intelligence Agency, and the State Department. Upon clearance and subsequent CMH review, rewriting, and editing, the entire manuscript will be forwarded to Army and Defense Department Public Affairs for open publication clearance.

This manuscript is considered unclassified, however, until it is cleared by all appropriate agencies, please store it in an appropriate security container.

Please acknowledge receipt by notifying this office (272-0323/24) or by returning the enclosed DA Form 209 attached. Questions regarding the manuscript's content may be referred to the undersigned or Dr. Clarke (272-0340). It would be appreciated if the review could be accomplished within 30 days of receipt. Please call the above number when the review is completed, and prior to returning manuscript and comments.

Sincerely,

A handwritten signature in dark ink, appearing to read "James W. Dunn".

See notes attached. Notify the Army that approving excerpts from classified CIA documents for publication at the under level does not mean that the source documents are declassified. Suggest further coordination with DO.

I READ THE ATTACHED PAGES  
FROM THE UNEDITED MANUSCRIPT  
BY DR. CLARKE AND CAN SEE NO  
REASON WHY WE SHOULD PREVENT  
THIS BEING PRINTED AS "UNCLASSIFIED".

THE INFORMATION HAS NO PRESENT  
VALUE TO US AND REVEALS NO  
"SOURCES AND METHODS". I AGREE,  
HOWEVER, THE ARMY SHOULD HAVE LISTED  
THE CLASSIFICATIONS FOR THE DOCUMENTS  
-- TWO OF WHICH ARE DDO REPORTS  
(PAPER CLIPPED). THIS IS YOUR BATTLE  
TO FIGHT NOT OURS BECAUSE WE  
WOULD RELEASE THE INFORMATION.

## REMARKS

Please review the attached for release. I don't appreciate the Army's inference that our review would be less than objective if we knew the class of the source items (as though we couldn't find it if we wanted to).

MEMORANDUM FOR:

IRO/DI

There's a policy question here. As you can see in the attached manuscript, the CIA documents in the footnotes--mostly DDI and old OCI memos--show no classification. Deliberate on the part of the Army historians, says their Colonel Dunn. He wants us to make an "unbiased" classification judgment on the use of the information in the manuscript, not on what the classification of the document was from which the information was abstracted. The question is: do we want to go along with these ground rules, and make a classification decision on a manuscript without knowing the security "climate" from whence the information came? We can't find the original documents or find any information [redacted] that they were ever declassified. How does the DI feel about such an action?

( The documents were apparently stuck away in various Army types' "personal files". )

says substantively, and how this might damage the U.S., not on what the classification of the source is. A different and refreshing policy, but not too popular with places like N.S.A., I presume.

Even if we tried to trace out the classification of these poorly-described CIA documents, it might be an almost impossible task. When ☐ was OCI/FOIO he kept splendid records of all OCI documents (which these are most of) that were released. With his retirement, and the breakup of OCI, no one (including ☐) seems to know what happened to his system!

Having said all the above, and using Col. Dunn's rules, I would say that CIA has no objection to the release of the pages which we reviewed - but are curious about the rest of the document.
